

A M E N D E D

POLICY NO. 76

BOARD OF COUNTY ROAD COMMISSIONERS  
OF THE  
COUNTY OF ST. CLAIR

SUBJECT: Allocation of Funds for Safety Related Projects

AMENDED: June 4, 2002

Effective with the adoption of this policy, and upon sufficient availability of annual increases in available operating funds, the following shall be set-aside and reserved for safety related projects:

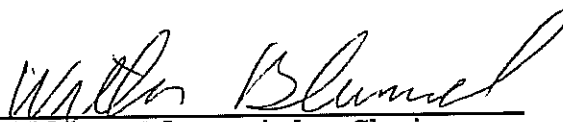

Primary Road System - \$100,000

Local Road System - \$100,000

Funds set aside for use on the local road system shall be considered as matching funds for those projects which would normally require same. In the event the local road system or primary road system carryover from previous years exceeds 175% of the annual allocation, the allocation may be redirected towards other road projects or funds.

Safety related projects may include but will not be limited to the following described activities:

- Guard rail installation at new locations;
- Installation of traffic signals and/or flashers at new locations;
- Intersection related safety improvements;
- Sight and grade improvements at specific locations; and
- Minor grade improvements including the addition of turning flares which are designed to improve traffic flow.
